

Measuring Customer Satisfaction

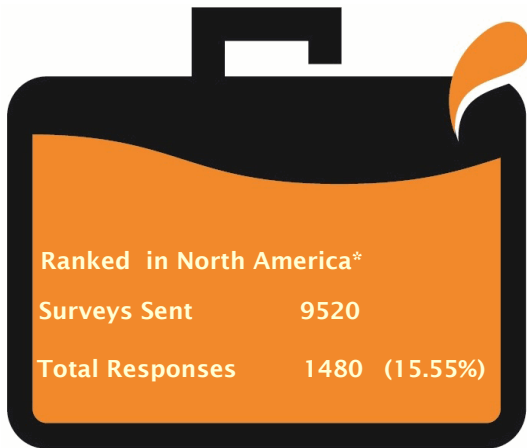

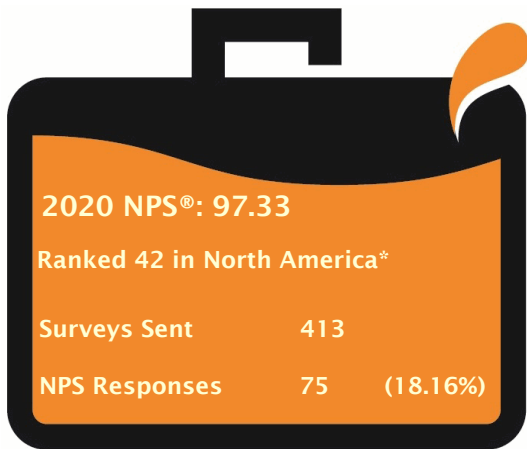

Many companies claim that they have the "Best service in the business" but few even have a way to measure how happy customers are. Here at Corporate Business Systems - WI we have a system that allows us to capture feedback after every service call. We use the Net Promoter Score system www.netpromoter.com

The average N. American company has a Net Promoter Score® of 30.

Some well-loved companies reach scores into the 70s and 80s
